ABOUT ME

As a front-end developer, I am skilled in creating responsive and visually appealing web applications. I have expertise in JavaScript and ReactJS, and I am always eager to learn new technologies to stay up-to-date with the latest trends. I am comfortable working in both small and large teams, and I am able to adapt quickly to new environments. I enjoy collaborating with others and leveraging my skills to deliver high-quality products that exceed expectations. My goal as a front-end developer is to create user-friendly applications that provide a seamless experience for users. I am committed to continuous learning and growth in my field, and I am excited about the opportunity to contribute my skills to a dynamic team.

WORK EXPERIENCE

Junior Front End Developer

Kreatx [11/2022 – 05/2023]

City: Tirana

Country: Albania

During my time as a front-end developer, i had the opportunity to work on a large-scale project using a proprietary frontend Javascript framework. Through this experience, i developed a strong understanding of Scrum methodology and the importance of effective communication and collaboration within a team environment. Additionally, i gained expertise in JavaScript, API integration, debugging, and maintaining clean, efficient code.

Front End Developer Intern

Pragmatic Software shpk [07/2021 – 11/2021]

City: Tirana

Country: Albania

During my internship as a front-end developer, I worked on two projects that expanded my skills and knowledge in web development. The first project involved using HTML, CSS, JavaScript, jQuery, and Bootstrap to develop a user-friendly and visually appealing website. The second project involved creating a single-page web application using ReactJS, which improved my understanding of reactive and modular web design. These experiences allowed me to gain hands-on experience and solidify my understanding of front-end development principles, preparing me for future roles in the field.
